

OZONE HAIR STEAMER

This steamer is a wonderful addition to your deep conditioning treatments. It helps to open the cuticle and follicle of the hair for best absorption as well as the pores in the scalp. This Hair Steamer can decrease the processing time of a color service. The Ozone feature will increase cell oxygenation to help make your hair and scalp healthier.

OZONE TREATMENT FOR HAIR AND SCALP

Ozone therapy for hair has widely been acknowledged for its effectiveness in treating hair and scalp problems like dandruff, hair fall, hair thinning and damage. These hair problems are mainly caused due to factors like ageing, hormonal imbalance, poor hair care, unhealthy diet, illnesses and infections, genetic traits, pollution and other external factors, which generally dehydrate or infect the scalp to further weaken and damage the hair follicles.

- Rejuvenates and fortifies the hair follicles to strengthen and nourish the hair & scalp.
- Improves blood circulation and eliminates any microbial infection present in the scalp and hair.
- Treats hair breakage, thinning and also helps to treat other graver issues like psoriasis, seborrheic dermatitis, balding and alopecia.
- Stabilises the scalp and treats dandruff issues, aids in regeneration of new hair,
- Promotes hair growth and thus helps to create smooth, soft, radiant and beautiful tresses.
