- This massager can be used on whole body, release pains, muscle tense, body fatigue and promote blood circulation perfect health care massager.
- Made of high quality material for safety and long lasting use, can use anywhere you want.

## VIBRASION

Cells contracting and dilating by high speed vibration. This motion increase the rate of cell metabolism up to 80-200%.

During the session:

- Reduces fat composition,
- Enhance the sensitivity & motion of the Gastrointestinal,
- Eliminates toxins,
- Promotes personal wellness and slimming..

## SOFTENS FAT

The high-speed vibration produces heat energy – rising the temperature by 2 – 5°C in the deep tissue, accelerating fat transformation to other energy, burning fat and decomposing triglycerides. This treatment can be used with fat-burn cream which will assist in accelerating fat transformation.

## ELIMINATE EDEMA

Cells in the human body vibrate with the massage head movement – This motion promotes: Blood flow, Lymph and tissue fluid circulation, Maximises oxygen supplement, Accelerates sub-stance exchange.

## IMPROVE SCARRING

The constant vibration activates sensitivity of the nerve endings, producing neurotransmitters – an important aid in biosynthesis. These biochemical reactions promotes collagen composition, repairs injured cells, enhances the flexibility of muscle and sagging tissue, supply nutrients to the skin, improves scarring, lift and firms skin.

## HEALTH CARE

Regulates endocrine system and central nervous system; balances disordered energy metabolism; improves sleep; relieves pressure; helps with Head- and backaches; minimises Depression and Anxiety; enhances blood-, lymph- and micro-circulation; accelerates biochemical reaction between nutrients in the blood and tissues, excluding metabolic waste & toxins; regulate gastrointestinal motility and strengthen the immune system and keep you in the state of well-being.
