

K-30A

PLASMA ION SANITISER

FOR AIR AND SURFACE SANITISATION

NEW

- Easy to operate
- Sanitizes difficult to reach places
- Suitable for daily use
- No toxic residue
- Proven to kill viruses
- Safe to use on all surfaces
- Low running costs

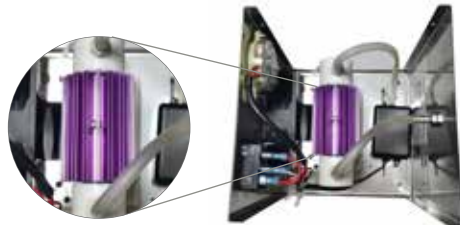

Cleaning cycle	Area			
	Vehicle	10m ²	20m ²	30m ²
Regular Clean (min)	8	16	32	48
Super Clean (min)	16	32	64	96
Disinfect (min)	28	56	112	168

Recommended runtime calculated under test conditions, actual results may vary.

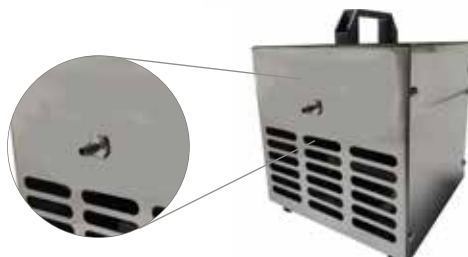

PERFECT FOR

Patented design bringing maximum Plasma Ion output.

Directional plasma ion output suitable for a wide range of application such as sanitization box and water purification.

Specification

Power Supply	220v/50Hz
Application	Household, etc
Certificate	CE
Warranty	1 Year
Net Weight	2kg
Size	190* 190* 190*
Usage Time	120 - 180 min
Plasma Ion	3g/h
Control	Analog Optional programming and remote control available
Plasma Ion Output	Compressor Based
