Vertical 3 Wavelength Diode Laser Machine- Hair removal unit

As a integrated solution, It combines the benefits of all 3 wavelength 808nm, 755nm and 1064nm. which has different laser characteristics.

Targeting different tissue depths as well as structures within the hair follicles. Thus to the greatest extent to ensure the effective result and painless.

It is operating at a wavelength of 808nm/755nm/1064n, the gold standard in laser hair removal

Why Choose 3 Wavelength into 1 single hand piece Platform?

By combining the absorption and penetration levels of three different wavelengths, along with the treatment coverage, comfort and low maintenance of the diode laser, achieves the safest and most comprehensive hair removal treatment available today
