

# Inogen One G5

With up to 13 Hours of Battery Life on a single charge, this is the perfect option to last throughout Load Shedding, regardless of the stage!

## Once again, Inogen innovation sets a new standard in oxygen delivery.

Introducing the Inogen One G5, our most versatile portable oxygen concentrator, delivering 6 flow settings in a compact and lightweight device.

The Inogen One G5 delivers medical grade oxygen on the go. Weighing 5.7 lbs and providing up to 13 hours of battery power\*, many patients feel empowered to carry it around as they perform activities such as running errands, walking with friends or taking a flight to visit family. The Inogen One G5 also meets FAA requirements for air travel.

When it comes to warranties\*\*, Inogen understands peace of mind is important. We've put together two customer warranties to best suit your individual needs. Our first option is a standard Three-Year Warranty, while the Lifetime Warranty makes sure your concentrator is covered for life. No matter which warranty you choose; you can always depend on Inogen.

The Inogen One G5 can be your single solution for supplemental oxygen at home, on the go or while traveling, 24/7 (with access to a power supply).

Discover how the Inogen One G5 can help improve your quality of life and help you breathe better. It's oxygen therapy on your terms. Oxygen. Anytime. Anywhere.®

The Inogen One G5 offers the most oxygen per pound for a portable oxygen concentrator on the market today. With flow settings from 1-6, the Inogen One G5 is designed to dramatically increase independence for most users 24/7. The Inogen One G5's user interface has been designed with an easy-to-read LCD display and simple control functions. It can be charged at home or on the go - giving you the freedom of Oxygen. Anytime. Anywhere. The Inogen One G5 is your one solution, your single solution, for oxygen at home or away
