

# Longfian JAY-1 A

The JAY-1A Portable Oxygen Concentrator is a highly innovative and portable oxygen concentrator that is perfect for on-the-go use. It is small in size and light weight, and has a long-lasting rechargeable battery. Additionally, the JAY-1A features a pulse flow setting that is equivalent to 5 litres per minute, making it one of the most powerful, efficient and cost effective portable oxygen concentrators on the market.

## Specifications

<b>Model</b>	JAY-1A
<b>Oxygen Flow</b>	Pulse dose delivery Five flow settings 1 - 5
<b>Oxygen Concentration</b>	93%(±3%)
<b>Net Weight</b>	1.98kg (includes single battery)
<b>Dimensions</b>	7.21x3.39x7.84 inches
<b>Battery</b>	Single Battery up to 4 hours on flow setting 1

## The JAY-1 A Portable Oxygen Concentrator is a highly innovative and portable oxygen concentrator

Our portable oxygen concentrator is compact and lightweight, making it ideal for mobility. With the addition of a vehicle adapter, it can be mounted in a car. Equipped with a rechargeable battery, this machine is convenient for travel. It is a cost-effective solution suitable for both blue-collar and white-collar workers and the general public.

The concentration of the produced oxygen can be adjusted from 30% to 90%. At a 90% concentration and a flow rate of 1L/min, it is suitable for those who require high-concentration low-flow oxygen, such as patients with carbon dioxide retention. At a 30% concentration and a flow rate of 5L/min, it is ideal for those who need low-concentration high-flow oxygen, such as athletes.

## Applications

1. Provides a convenient outdoor oxygen supply solution for patients who need to leave their homes for a short period.
2. Can be used to treat headaches and sleep apnea caused by cervical spondylosis.
3. Helps white-collar workers and students regain energy through inhaling oxygen.
4. Ideal for home healthcare for pregnant women and the elderly.
5. Relieves discomfort caused by haze.
6. Suitable for making oxygen cocktails.
