

Portable Vale V10 Multifunctional Body Slimming Machine

Frequency	50 Hz / 60 Hz
Voltage	220V / 60Hz
Size	65 x 65 x 65cm
Maximum Power	800 Watt
Fuse	220V - 10A / 110V - 20A

What the Portable Vale V10 slimming machine can do for you.

The desktop V10 slimming weight loss comprehensive instrument is a multifunctional operating system integrated instrument that combines the body and the face, which can improve problems such as body obesity and facial aging. The instrument acts on the human subcutaneous fat cells through a safe high-frequency energy wave and is generated inside the fat cells. The same frequency resonance generates powerful shock waves, free radicals and high-speed microjets. Safely decompose the fat cell wall from inside to generate cell debris and free fat. Cell debris is engulfed by phagocytes, and free fat is metabolized to the liver via lymph and blood.

It can effectively improve the curve of the legs, lift the sagging buttocks, reduce the abdomen, enhance the firmness of the skin, and improve the stubborn hardened cellulite. Compared with traditional treatment methods, the advantage is that it is non-invasive and does not cause any damage to the body.

40K Cavitation Head

The sound wave emitted by the strong sound wave head with strong sound waves up to 40000HZ, the energy wave enters the subcutaneous fat cells of the human body, and generates the same frequency resonance inside the fat to produce powerful shock waves, free radicals and high-speed micro jets. Decompose to produce cell debris and free fat. Cell debris is engulfed by phagocytes, and free fat is metabolized to the liver via lymph and blood.

3D Vacuum Radio-Frequency Head

Using advanced vacuum negative pressure liposuction technology, combined with infrared rays that can reach a depth of 650nm, and at the same time with the role of radio frequency electrodes, free fat is placed, excess fat is burned and dissolved, and discharged through the body's metabolism to achieve improvement in orange peel Organization, slimming and shaping effect.

Multipolar Radio-Frequency

High-frequency radio frequency can quickly enhance local blood circulation, cause fatty acid decomposition and fat cell metabolism, promote blood circulation, tighten skin, and achieve the effect of slimming and shaping.

Multifunctional integrated head

Combined with two 40K strong sound waves, two BIO micro-currents, two radio frequency, negative pressure and infrared lamps, the multi-function handle first uses 40K strong sound waves,

Face & Eyes Vacuum Radio-Frequency Head

Use negative pressure, radio frequency and infrared to improve aging problems such as facial sagging and more collagen loss, strengthen blood circulation to the face, activate sleeping cells, promote collagen regeneration, solve excess fat on the face and relax sagging and wrinkles, improve firmness Facial skin lightens wrinkles.

Slimming at a V10 rate, is the right rate!
