- ✓ Athletic performance
- ✓ Recovery

Hugo™ driver and PEMF technology.

What is PEMF?

PEMF stands for Pulsed Electromagnetic Fields. PEMF is a non-invasive and drug-free alternative therapy that has been used since the 1970s with proven results in studies for improving sleep, pain relief, reducing inflammation, and much more! PEMF therapy is a form of magnetic therapy using electromagnetic fields. Even though you cannot feel the therapy happening on lower power devices, it has multiple effects on your body down to a cellular level, helping your body with a wide range of applications.

The HUGO™ Pro is the ultimate professional-grade PEMF therapy device designed to help you achieve optimal health and wellness. The HUGO™ Pro is the highest intensity full body device we offer which is easy to use and features a portable, compact design, making it perfect for home or professional use. With advanced features like high-intensity PEMF technology and a user-friendly interface, the HUGO™ Pro PEMF is the perfect tool for anyone looking to take control of their health and well-being.
